Plumber's Continuing Education

2015 UPC Refresher

The participants will be able to analyze and interpret any change added to the current 2015 UPC Plumbing Code including Washington State Amendments. This course provides a complete synopsis of major code changes and furnishes the participants with an overview of what is new in the latest plumbing code requirements. **This class provides 12 hours of Code Update credits (8-hrs Code & 4-hrs IRP) with the State of Washington Plumber Continuing Education.**

Books are available for \$100 at our training departments.

Location: NWWPT—Burlington

Instructor: Tim Murcay

Dates/Times:

Saturdays
8:00 AM - 2:00 PM
March 3rd & 10th

Location: SWWPT—Lacey

Instructor: Mike Magyar

Dates/Times:

Tuesday/Thursday
6:00 PM -10:00 PM
February 20th, 22nd, & 27th
April 17th, 19th, & 24th

Location: SWWPT—Longview

Instructor: Terry Boudreau

Dates to be determined.
Please call to be placed on a waiting list.

Books may be limited. Please call (360) 486-9400 to ensure availability.

2015 Code Update

Instructor: TBD

Dates: March 1st & 8th

Location: WSPT—Bremerton

Days: Thursdays

Time: 5:30-9:30 PM

The participants will be able to analyze and interpret the changes added to the current 2015 UPC Plumbing Code including Washington State Amendments. This course provides a complete synopsis of major code changes and furnishes the participants with an overview of what is new in the latest plumbing code requirements. **This class provides (8) hours of Code Update credits with the State of Washington Plumber Continuing Education Courses.**

Water Systems

Instructor: Tim Murcay

Dates: January 6th & 13th, May 5th & 12th

Location: NWWPT—Burlington

Day: Saturdays

Times: 8:00 AM – 2:00 PM

This 12 hour class will train individuals in water system installations and how these systems apply to the 20125UPC. ***This course provides 12 hours of plumbing code (CODE) for WA. State Plumber Continuing Education.**

Remember: The First Aid classes also provide 4 hours of Industry Related Plumbing continuing education credit to support the plumbing licensing renewal requirement. Please read the class description carefully.

Electrical Safety 2016

These courses will provide electrical safety training for our members with emphasis on the plumber in the commercial and residential service industry. ***These classes provide (4) hours of industry related electrical (IRE) training thru WA State Plumber Continuing Education.**

Location: NWWPT—Burlington

Instructor: Vicki Hadley

Tuesday

5:30 PM -9:30 PM

February 27th

UA Rigging

UA Rigging Certification

Location: NWWPT—Burlington

Instructor: Sinanian

Dates: January 27th thru March 17th

Day: Saturdays

Times: 8:00 AM – 4:00 PM

You must be present for **ALL DAYS** of this course.

UA Rigging Recertification

Location: NWWPT—Burlington

Instructor: Sinanian

Dates: January 13th

Day: Saturdays

Times: 8:00 AM – 3:00 PM

You must have a current UA rigging certification.

Other Rigging

Integrity Safety Rigger and Signal Person Certification

Dates: February 17th

Location: WSPT-Bremerton

Day: Saturday

Times: 8:00 AM – 5:00 PM

Qualifies Rigging: Wire rope, Chain & Synthetic Slings.

Qualifies Signal: Hand, Voice & Radio.

All other rigging or signalperson needs

Location: Any

Please contact the training department so that we can schedule additional training as needed.

Medical Gas Certification

Med Gas Certification	Location: SWWPT—Lacey
<u>Instructor:</u> Duke Johnson	<u>Day:</u> Mondays and Wednesdays
<u>Dates:</u> April 2nd-May 21st	<u>Time:</u> 6:00-9:00 PM

This 40 hour class will cover proper procedures and requirements needed to install a Medical Gas System. The participants will need to purchase a copy of NFPA 99 at a cost of \$65.00, available at the Training Facility. **This class provides twelve (12) hours of Code Update credits with the State of Washington Plumber Continuing Education Courses. Bring Plumber's Licenses to verify card number to receive proper credit.**

Medical Gas Recertification/Refresher Course

Med Gas Certification	Location: WSPT—Bremerton
<u>Instructor:</u> Tyler Cowgill	<u>Dates:</u> February 20, 22 & 27th
<u>Time:</u> 5:30pm to 9:30pm	<u>Days:</u> Tuesday and Thursday

This 3 day course is designed to provide individuals with all the changes associated with 2015 NFPA Medical Gas Code. This course will prepare participants for the installer OPEN BOOK recertification exam. As of 2013, NITC requires all Med Gas installers to retest in order to renew that portion of their card. **This class provides eight (8) hours of Code Update credits with the State of Washington Plumber Continuing Education Courses.**

Medical Gas Continuity

***There must be a minimum of 3 people signed up to run any course.
Please sign up ahead of time to allow us to prepare the course.**

To keep your Medical Gas Card current and at no cost, a brazing procedure must be performed and documented every 6 months. The Med-Gas Braze can be documented by either a continuity filled out by the contractor you are working for or by performing a braze continuity at the training center. **CHECK YOUR EXPIRATION DATES!!!!**

Location: NWWPT—Burlington <u>Instructor:</u> Eric Soley/ Jeff Hurbert <u>Dates/Times:</u> 1st Thursday of the Month 4:30 PM - 7:30 PM January 4th February 1st March 1st April 5th May 3rd June 7th	Location: SWWPT—Lacey <u>Instructor:</u> Duke Johnson <u>Dates/Times:</u> 1st Thursday of the Month 4:00PM - 6:00 PM January 4th February 1st March 1st April 5th May 3rd June 7th	Location: WSPT—Bremerton <u>Instructor:</u> Tyler Cowgill <u>Dates/Times:</u> <p style="text-align: center;">As needed—call to sign up.</p>
--	--	--

Medical Gas Continuities may be performed during UA Weld Test Sessions (Page 10)

Medical Gas FAQ

What is the difference between the NITC Certification and the Washington State Endorsement?

Washington State requires you to be endorsed on any job involving medical gas. In order to receive the WA State Endorsement, you need to have a valid card with NITC. Once you have the endorsement, the state is not concerned about the status of your NITC certification so you MAY let the NITC certification lapse and just maintain your state endorsement. L&I expects you to maintain your braze certification by completing continuities every 6 months. Every two years, when you renew with the state, you will be required to complete a Medical Gas Installer's Affidavit of Continuity; you may bring that in to one of our facilities to get it signed and notarized.

If you plan to travel to work in different locals, you may want to keep the NITC certification in the event those locals or jurisdictions require it.

I am trying to get my NITC medical gas certification for the first time. What happens if I fail the installer, or a portion of the braze?

There are 2 portions of the Medical Gas exam, the installer (a proctored, open book exam based on the 2015 code) and the brazer. You can pass one portion and fail the other. There are two parts of the brazer that you need to pass; the horizontal and vertical up flow portions. If you fail one part, you have up to 6 months to retake that portion only. If you go over 6 months, you need to retake BOTH portions of the braze exam.

If you fail the installer, you may retest at the next exam held at our training center, or at a PSI center. The 2015 book is available to purchase from our training offices for \$65.00.

My NITC Braze continuity lapsed, how do I renew it?

If you have not been brazing med gas every six months, you will need to take the NITC brazing recertification by performing a vertical up flow (\$50 fee). Since the recertification process requires a third party representative, they may only be performed during our scheduled weld test events. Contact the training office for test dates.

How do I renew the Installer portion of my license?

If you need to renew your installer, you must take a proctored, open book exam based on the 2015 code. You have up to 30 days from your expiration date to take and pass the exam.

If you want to take the exam on your own time, you can set-up a date and time with NITC. You will need to follow the instructions for testing at a PSI center. The 2015 book is available to purchase from our training offices.

You tell me my NITC brazer or installer certification is about to expire but my card says I'm not.

There is a lot of confusion between the NITC and the Washington State Endorsement. The training office does **not** track state expiration dates, only NITC. You may bring your Medical Gas Installer's Affidavit of Continuity to the training center for a signature and to be notarized before submitting it to the state with your renewal fee.

When renewing my braze continuity, does my new expiration start 6 months after my expiration date? Or 6 months after my most recent braze (date you enter on your continuity form)?

Your new expiration date will be 6 months from the date of your most recent braze. This is the date that you enter on your continuity form.

Welding Practice Sessions

***There must be a minimum of 3 people to run any course.
Please sign up by Wednesday to allow us to prepare the session.**

Location: NWWPT—Burlington

Instructor: Richard Powell, Greg Heath, Steve Mayervich
or Bruce Savage

Time: 8:00 AM - 12:00 PM

Dates: The Burlington weld shop is scheduled to be open every Saturday (excluding holidays) for welding practice. Please contact the NWWPT training center to ensure we have an instructor available.

Location: SWWPT—Lacey

Instructor: Jay Clevenger, Mike Murphy, Kevin Dolan, or Al Wellington

Time: 8:00 AM - 2:00 PM

Dates: The Lacey weld shop is scheduled to be open every Saturday (excluding holidays) for welding practice. Please contact the SWWPT training center to insure we have an instructor available.

Location: SWWPT—Longview

Instructor: Austin Greene or Patrick Byrnes

Time: 8:00 AM - 2:00 PM

Dates: The Longview weld shop will be open on an as needed basis. Please contact the SWWPT training center to sign up.

Location: WSPT—Bremerton

Instructor: James Fratello or John Lee

Time: 9:00 AM-1:00 PM

Dates: The Bremerton weld shop will be open on an as needed basis. Please contact the WSPT training centers to sign up.

United Association Weld Testing and Continuity

Medical Gas Continuities may be performed during these UA Weld Test Sessions

Additional weld test events may be arranged if there is enough of a demand.

NWWPT BURLINGTON

ATR: Richard Powell, Greg Heath, Steve Mayervich
or Bruce Savage

Dates/Times:

8:00 AM – 3:00 PM

January 6th

March 3rd

May 5th

WABO testing is also available at the Northwest
Washington Pipe Trades Training Center.

WSPT BREMERTON

ATR: John Lee or James Fratello

Dates/Times:

Date and Times are to be determined. Please

Contact either the SWWPT training center or the WSPT training center to sign up.

SWWPT LACEY

ATR: Kevin Dolan, Jay Clevenger, Mike Murphy.

Dates/Times:

8:00 AM – 3:30 PM

January 27th

April 14th

June 16th

SWWPT LONGVIEW

ATR: Jay Clevenger or Pat Byrnes

Dates/Times:

8:00 AM – 3:30 PM

February 17th

PNW-RSO Training

We will begin transitioning to PNW-RSO cards in an effort to support work at Tesoro. At this time, the other refineries (Shell, Conoco-Phillips, and BP Oil) are accepting CSTOP and PNW RSO cards. The participants of this course will receive the PNW-RSO Safety card. This course is not approved with L&I for continuing education credit.

In order to hold the PNW-RSO class at one of our training centers we need to have 10 people sign up for the class. If we do not have 10 people signed up we can direct you to one of Integrity Safety's facilities to obtain the PNW-RSO card. Be sure and contact either the Lacey or Burlington training center to arrange to take the class at Integrity Safety's facility. The training department has an account with Integrity safety and we will pay for the PNW-RSO card for the members of UA Local 26. We need to know who requires

Location: SWWPT—Lacey

Instructor: Integrity Safety

Saturday

8:00 AM to 1:00 PM

Due to a lack of participation RSO classes will be scheduled on an as needed basis.

Location: NWWPT—Burlington

Instructor: Integrity Safety

Saturday

8:00 AM to 1:00 PM

February 17th

April 14th

June 9th

Instrumentation

Instrumentation Level I Cert

Location: NWWPT—Burlington

Instructor: Stephen Harlan

Day: Saturdays

Dates: January 13th thru March 31st

Times: 8:00 AM – 3:00 PM

This course provides the Instrumentation certification required to install and maintain process instrumentation. **You must be present for ALL DAYS of this course.**
